The provision of the research article is also quoted from the "Eligibility for admission" as follow.

"The candidate should have published three research articles at least and out of them one should have been written on Buddhism, Buddhist philosophy, literature, arts, culture, applied Buddhism and related subject in the standard journal."

Note : The Research Committee reserves the right to select the candidates based on the article evaluation report and to reject any candidate in case the copy of document submitted and the original does not match. The candidate may also be rejected if a major discrepancy is identified between the details filled in the form and the documents submitted/original produced.
